

Term 1 Home Learning

Literacy	Numeracy	Health and Wellbeing	RE	Science	Social Studies	Technologies	Expressive Arts
Create a mnemonic to help remember the order of the planets	Take a photo of shapes that you have found in the environment	Make a short fitness routine and teach it to a friend or family member	Display on a mind map information about a celebration from another religion	Look at the moon every night. Notice how it changes shape	Watch the news and discuss an important issue with a family member	Find and make a space themed recipe	Write a rap or song about space
Make up a quiz about space (you must know the answers!)	Teach a family member a strategy that you have learnt in class	Make a list of 10 things you would need in space and why	Share some knowledge about a special interest or hobby with a family member	Find out what a constellation is and draw a diagram of one	Visit a museum and try to remember 3 interesting facts	Make yourself a healthy packed lunch	Design an alien. Label any unique features
Create an interesting description of a planet using a metaphor, simile and alliteration	Make a poster to show what you know about 2D shape	Go for a walk and notice what you can see, smell, hear and touch	Share with someone all the positive and wonderful things about a friend or family member	Write down 5 things you have done to save energy this week	Try to visit a library and read a non-fiction book about the past	Use recycled materials to create a space craft	Listen to a classical music piece from Holst's 'The Planets suite'. Create a piece of art to express how you feel
Create a comic strip about the moon landing	Complete a Sumdog challenge	Make time in your day to be mindful and reflect on your achievements	Donate something you no longer use to charity	Visit a park or garden. Find out the name of one of the plants or trees you see there	Make a list or mark on a map all the countries that have sent astronauts into space	Invent something that would be useful in your day to day life	Create a short dance routine to your favourite song
Learn how to say hello in 5 different languages	Write a word problem using decimal numbers for someone else to solve	Have a conversation with a friend or family member you haven't spoken to recently	In December, make an Advent promise. Keep notes on your progress	Write a fact file about Neil Armstrong or another astronaut of your choice	Read a news article and write bullet points of the key information	Send an email to a friend or family member	Play charades with a friend or family member. Use words that you have learnt in class this week
