

Seahorses.

The children have settled well in the Seahorse room. They have been focusing on their emotions and learning all about themselves and each other. The children have been building new friendships and have been learning to share.

As part of the children's responsive planning this week, the focus has been on transport and road safety. We made a plan to go for a walk. The children crossed a number of roads safely. We spoke about the safe ways to cross the road.
