

Primary 3 Home Learning

Week beginning: Monday 25th November 2024

PE Date Changes

Both P3 classes have had a change of PE days. Below are the new PE days for each class.

- **P3A:** PE will be on **Mondays** and **Tuesdays**.
- **P3B:** PE will be on **Tuesdays** and **Thursdays**.

Home learning Information

It is important to remember that your child in Primary 3 has been working hard in school all day, so only 10-15 minutes of home learning is enough each night. Please do not worry about handing in learning. Home learning is provided to help you support your child at home and should remain at home.

Reading

Please read with your child daily. Help them read unfamiliar words by saying the sounds they know and discussing new vocabulary.

- If reading **Read Write Inc. books**, your child will have a weekly reading book. Practise reading **speed sounds, green words, red words (tricky words)** and then the story. After reading the story, **complete the questions at the back of the book**.
- If reading a **novel**, please **only read the pages or chapter instructed** in the reading record.

Phonics

This week, the phonics home learning will be a focus on tricky (red) words.

In your home learning jotter, practise reading the words, saying the words, and try to write the word from memory. Write the words 3 times in the home learning jotters. Remind your child to **look, say, cover, write and check**.

P3B - Your child's phonics group can be found on the inside front page of their reading record.

P3A - Your child's phonics group can be found on the inside front page of their home learning jotter or their reading record.

Write 3 sentences using 3 of your words. Remember to include capital letters, full stops and finger spaces. Try to add detail to your sentence by using connectives like 'and' or 'because'.

Alphabet Adventurers	Vocab Voyagers	Sentence Superheroes
were into here do as so very	all be she he some said one	the to is me was saw want

very two only	you her of	put be she
---------------------	------------------	------------------

Numeracy and Maths

This week, we are focusing on the three aspects of **measure: length, capacity, and weight**.

The numeracy home learning walls have different activities you can do with your child at home to practise numeracy skills we have been learning in class. Choose one activity from the **numeracy learning wall** and complete this in your child's home learning jotter. Your child's group name can be found in their home learning/ reading folder. On the website, we have also shared **QR codes** for online games to support numeracy.
