

Primary 4 Home Learning – Week Beginning 30.03.26

Literacy

Literacy

We will be writing poetry about spring this week. As you go through the week, try to notice the signs of spring and create a bank of interesting vocabulary that you can use in your personification poem.

Think about your senses; what is there to see, hear, smell, touch and taste? What colours can you see in nature?

Please read 15 minutes daily of your reading book. Answer the following questions:

Numeracy

Measurement

We are learning about measurement and how we can measure lengths accurately. At home, see if there is something you can measure. What unit should you use, metres, centimetres or millimetres?

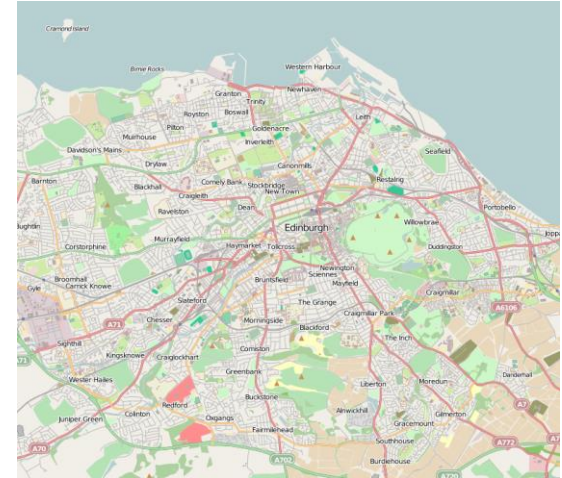

As a challenge, try to find the perimeter of a room, garden or object in your house.

As always, there is also a Sumdog challenge set.

Topic/Other

Mapping

We have been learning about maps and how to navigate our local area.

This week, create a set of directions to get from your house to somewhere you often go. Use an online map to help you if you need. Then try to follow your directions and see if you end up at the right place. How accurate were your directions?
