Class Novels

We have been reading a class novel to start the school year and get ourselves back into reading. The book is called Pig Heart Boy, and it is about a boy who needs a heart transplant. However, there is not a human donor available, so he gets a pig's heart. The book explores how this affects his family and friends, especially once the press find out! We have enjoyed discussing the issues in the book and it has provoked some really interesting conversations.
